

## Parents, Youngsters, & All-Terrain Vehicles

With the recent local fatality accident involving a 12-year old and an All-Terrain Vehicle (ATV), Saylor Insurance would like to provide as much information on ATV safety as we possibly can. ATVs handle differently from other vehicles, and proper instruction and practice are extremely important.

With this link, [Parents, Youngsters, & All-Terrain Vehicles](#), you will find an exceptionally informative booklet by the ATV Safety Institute, which contains information and guidelines to make ATV riding a safe and enjoyable family experience.

We strongly suggest that parents read this booklet to determine the readiness of their children, and use as a reference when discussing ATV safety with their children.

Happy and Safe riding to all!
