

## Windshield Repair - - Did you know?

Did you know that on a personal auto policy, almost every one of our companies will pay to repair a chip in your windshield, provided you have comprehensive coverage on your vehicle?

These companies figure that it is cheaper to pay for a repair rather than to pay to replace a windshield. Keep in mind that if you do have to replace your windshield, you will be responsible for your comprehensive deductible before any payment can be made from the insurance company.

When it comes to selecting a repair or glass service shop, you can use any that you choose, but many insurance companies are contracted with certain repair shops, which makes the claim go more smoothly.

Many companies accept Safelite Auto Glass (they recently purchased Auto Glass Center). Safelite AutoGlass was founded in 1947. Throughout more than 60 years of service, their company has grown from a single store in Wichita, Kansas, to a national auto glass provider, serving nearly 4 million customers per year. Safelite is also preferred by more insurance companies than any other auto glass provider. For our customer's convenience, we have a link to Safelite, found under our "Related Links" tab on our website at [www.saylorinsurance.com](http://www.saylorinsurance.com).

If you have a chip in your windshield, don't wait until it is too late to repair it! Give us a call and we will be happy to set up a claim for you!
